

The Literacy Zone

The Literacy Zone provides information and assistance to students and community members to help them access the resources and services they need to reach their goals. Through our in-house classes and programs, along with our partners, we help students obtain their High School Equivalency, develop and sharpen their job skills, develop financial and health literacy, and improve their lives and the lives of their families.

The Literacy Zone Welcome Center

This aspect of our Literacy Zone provides newcomers to our community with a means to understand the resources and services they need in order to successfully navigate their way in a new environment. The Center helps individuals and families alike address the challenges of assimilation into a new culture, learn a new language, adapt to the economic demands of their new environment and assist their children to attain academic and personal achievement. Community residents may drop in during office hours for assistance and referrals.
